About Eikon Therapeutics

Eikon Therapeutics seeks to advance breakthrough therapeutics through the purposeful integration of engineering and science. Our proprietary discovery technologies leverage Nobel Prize-winning super-resolution microscopy, advanced engineering, and high-performance computing to visualize and measure the real-time movement of proteins in living cells, with the goal of bringing important new medicines to people suffering from grievous illness. Eikon operates from its facilities in California, New Jersey, and New York, and can be found online at www.EikonTx.com or [LinkedIn](#).
